

Easter Types of Number

You must work through each number type in order. Start by shading all of the prime numbers, then shade all of the cube numbers and so on. Some numbers will not fit into any of the number types listed; these should be left unshaded.

Key:

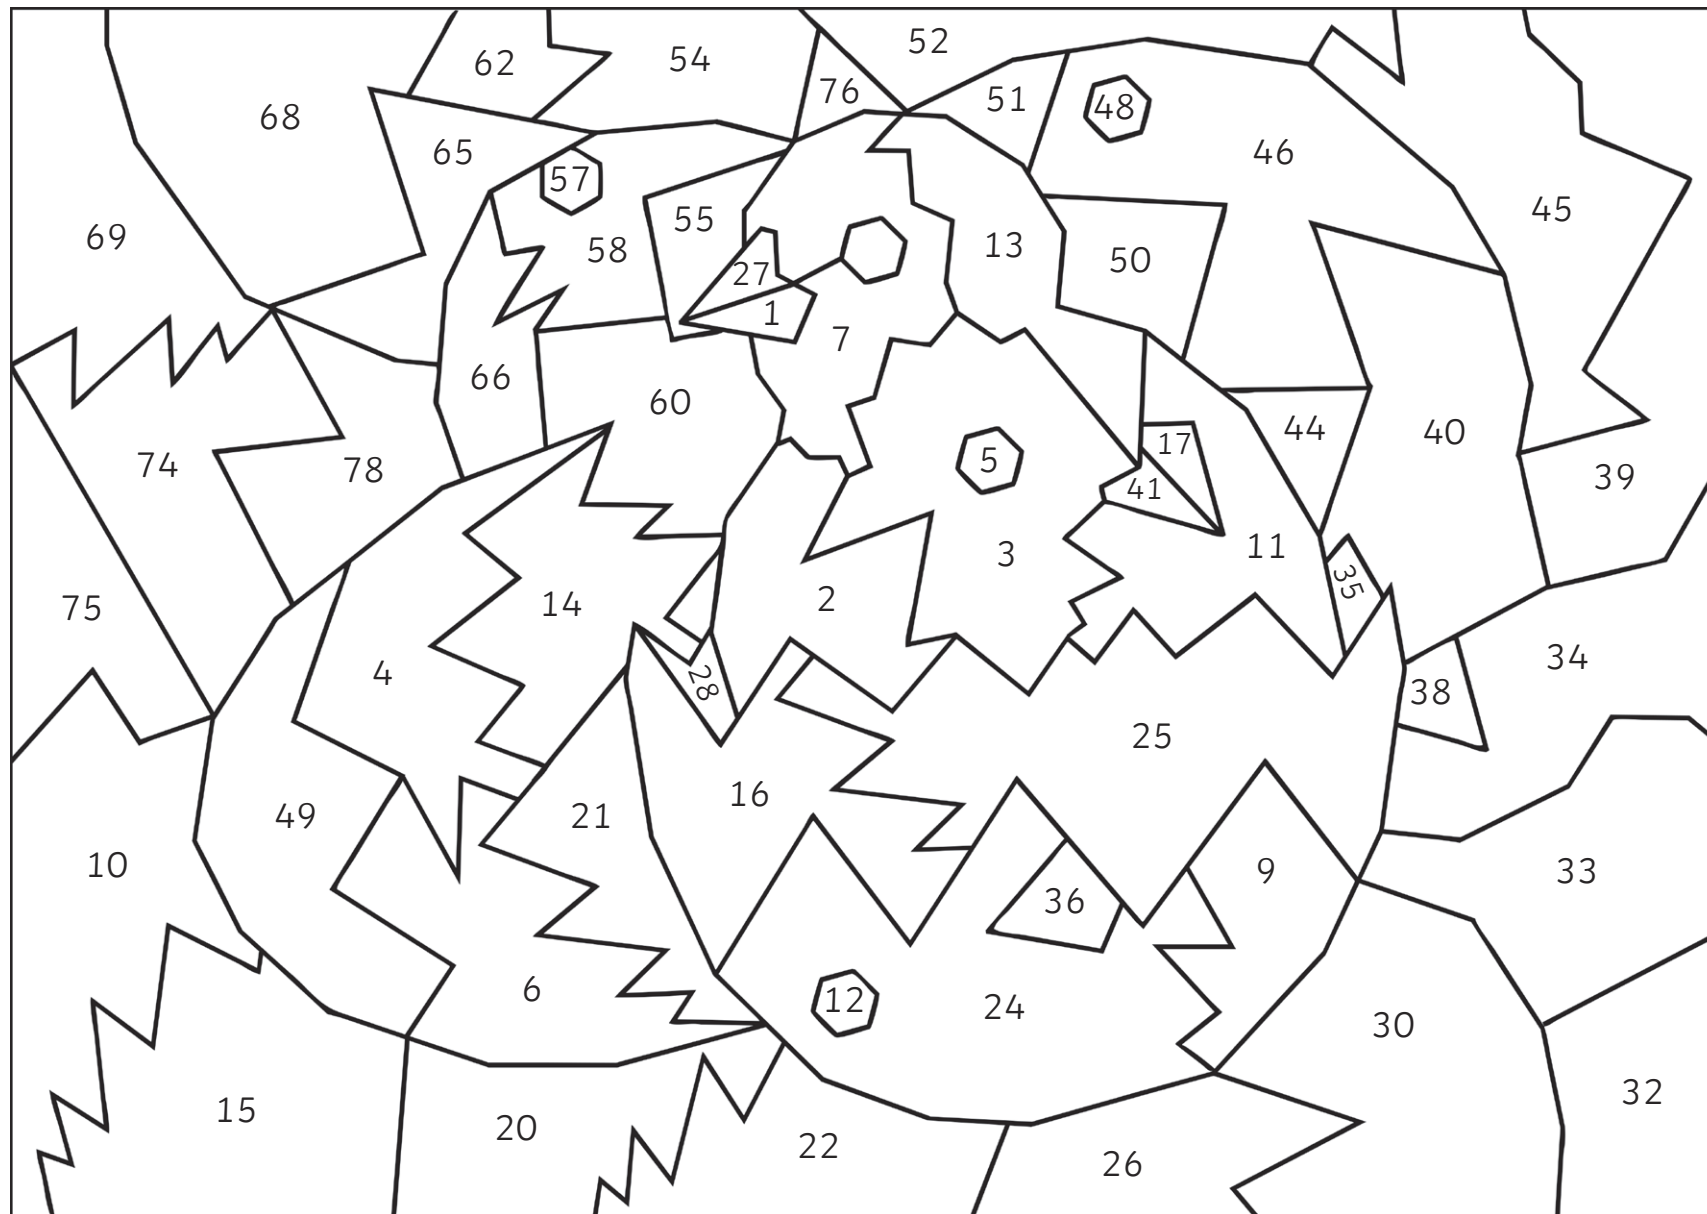

Yellow = prime numbers

Orange = cube numbers

Light purple = factors of 72

Blue = square numbers

Beige = multiples of 7

Easter Types of Number Answers

You must work through each number type in order. Start by shading all of the prime numbers, then shade all of the cube numbers and so on. Some numbers will not fit into any of the number types listed; these should be left unshaded.
